

# FIRE ESCAPE

NAME .....

FILL IN THE BLANKS TO COMPLETE THE FIRE ESCAPE STORY

A **pan** catches fire in the kitchen

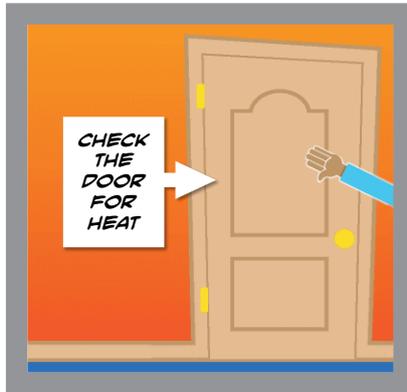

The **smoke alarm** bleeps loudly to warn that there's a **fire**

Omar has to make sure that everyone has **woken up**. He shouts " **fire** !"

Omar has to make sure that it's safe to **open** his bedroom door

He checks the **bottom**, the **top** the **middle** and finally the door **handle** with the back of his hand, to see if it is **hot**

Close the door behind you to stop poisonous **smoke** from spreading and to starve the fire of **oxygen**

~~fire~~ ~~top~~ ~~hot~~ ~~smoke~~ ~~woken~~ ~~smoke~~ ~~up~~ ~~fire~~  
~~oxygen~~ ~~middle~~ ~~pan~~ ~~bottom~~ ~~open~~ ~~alarm~~ ~~handle~~

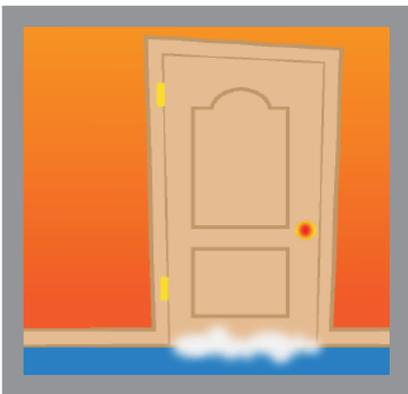

Because smoke is **hot** it rises, which leaves cleaner air at level.

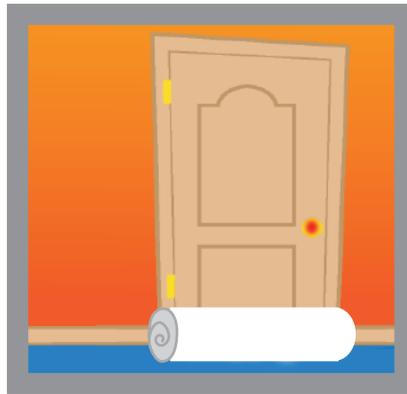

Once you are out, you **stay** out.

Call **999**

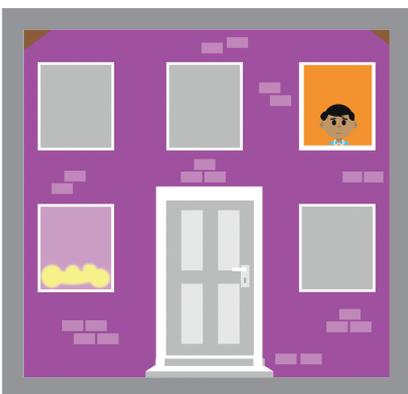

If your bedroom door is **hot** do not **open** it.

Roll up your **duvet** and place it against the gap at the **bottom** of the door.

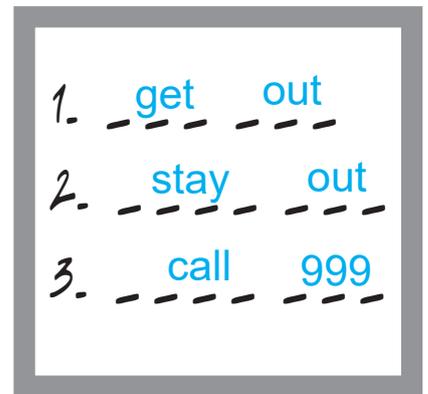

Open the window. Ring **999** and shout "**help fire!**"

Stay by the window. Do not try to **jump** out.

Wait for the **fire fighters** to get you out.

1. **get out**
2. **stay out**
3. **call 999**

Remember the **three** golden rules.

~~999 jump hot floor fighters open help bottom out 999~~  
~~fire get call stay hot out fire three 999 duvet stay~~
